Title: Need to rehabilitate the textile mills workers rendered jobless after the closure of textile mills in Ahmedabad.

DR. KIRIT PREMJIBHAI SOLANKI (AHMEDABAD WEST): Earlier, in Ahmadabad textile mill industries were flourishing and Ahmedabad was known as 'Manchester of India'. However, since few years, many textile mills have been closed down. Hence, mill workers, labourers and many others have become unemployed. As a result they are jobless and live in miserable conditions. Due to unemployment, their families and children are facing hardships. Most of them, belong to Scheduled Castes, Other Backward Classes and economically deprived sections. I request Central Government to rehabilitate them and provide job opportunity, particularly in Apparel Parks and also provide 'package' for them.
